

KNOW THE SIGNS

Is something living in your walls?

- ✓ Scratching or scurrying at night in walls or ceilings.
- ✓ Droppings in the pantry, garage or under sinks.
- ✓ Chewed food packaging, wiring or insulation.
- ✓ Greasy rub marks along baseboards and pipes.
- ✓ A stale, musky odor that won't go away.

The difference

Trapping treats the symptom. Exclusion solves the problem.

Good to know

A mouse can squeeze through a gap the size of a dime. If a pencil fits, so does a mouse.

A locally owned pest solutions company serving the Kansas City metro.

MEET THE OWNER

Joe Cusic

30+ years in the field. The person who answers the phone is the person who shows up.

- ✓ Licensed applicator, MO and KS
- ✓ You deal directly with the owner

RODENT EXCLUSION

SEAL THEM OUT. FOR GOOD.

Rodent exclusion that fixes how mice and rats get in, not just the ones you see.

2-YEAR WORKMANSHIP WARRANTY

WHERE THEY GET IN

The gaps a mouse is looking for

- 1 Roofline, soffit and fascia gaps
- 2 Attic and gable vents
- 3 Utility, gas and AC line penetrations
- 4 Garage door seal, the most overlooked entry
- 5 Foundation cracks and weep holes
- 6 Dryer and crawl space vents

Why traps alone fail

Traps and bait deal with the rodents inside today. They do nothing about the openings that let them in. As long as those gaps stay open, new mice and rats keep coming, season after season.

OUR PROCESS

Sealed from the ground up

- 1 Top-to-bottom inspection**
Foundation, siding, utility lines, garage doors and roofline. We document every gap.
- 2 Seal every entry point**
Steel mesh, metal flashing and professional sealants that stand up to gnawing.
- 3 Clear out what's inside**
Interior trapping removes the rodents already in the structure.
- 4 Guard the perimeter**
Tamper-resistant exterior stations and monitoring cut down pressure from outside.

WHAT WE SEAL WITH

STEEL MESH

Packed into gaps. Rodents can't chew through it.

METAL FLASHING

Bent to fit corners, rooflines and door edges.

PRO SEALANTS

Weather-rated, applied over the mesh.

Why it matters

Rodents contaminate food and surfaces, and their gnawing damages wiring, insulation and stored belongings.

BUILT TO LAST

Backed by a 2-year warranty

- ✓ 2-year workmanship warranty on every area we seal.
- ✓ No required service plan to keep your warranty in force.
- ✓ A written proposal that spells out each entry point and each repair.
- ✓ Garage door seals, the most overlooked entry on most homes.
- ✓ 30+ years of experience finding what others miss.

More than one building?

Barns, shops, guest houses and detached garages can all go on one written proposal.
